New Source Review newspaper advertisements for construction permit applications, February 10, 2005. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: February 8, February 9, or February 10, 2005. Public notices are generally published every two weeks. The previous publication of public notices was January 25 - 27, 2005.

## **PUBLIC NOTICE**

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Cass Plastics Recycling</u>, <u>LLC</u> with a mailing address of <u>P.O. Box 276</u>, <u>Newbern, TN 38059</u>. They seek to obtain air contaminant permits for air contaminant sources located at <u>402 S. Grayson St., Newbern, TN 38059</u>, as follows:

- (1) <u>Polymer Granulating Operation</u> (Division identification number: <u>23-0126-01/57925</u>). This existing operation consists of a mechanical granulator for reducing polyvinyl chloride scraps to pellets for molding plastic products. A cyclone and fabric filters are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.
- (2) <u>Polymer Powder Making Operation</u> (Division identification number: <u>23-0126-02/57926</u>). This existing operation consists of a mechanical pellet-pulverizing unit used to reduce polyvinyl chloride pellets to powder for molding plastic products. A cyclone and fabric filters are used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Dyer County "State Gazette"--published once on or before Thursday, February 10, 2005.

The applicant is <u>Scepter, Inc.</u> with a mailing address of <u>1485 Scepter Lane, Waverly, TN 37185</u>. They seek to obtain an air contaminant permit (Division identification number: <u>43-0006-28/57869</u>) to modify an <u>Aluminum Melting Operation</u> located at <u>the same address</u>. The existing operation consists of an electric induction furnace and a delacquering kiln. An ammonia gas-injected baghouse is used for control of acid gas emissions from the delacquering kiln. The proposed modifications are to add fluxing capability to the electric induction furnace

Air Pollution Control feb1005-web.doc 1

and to fabricate a hood and ductwork to allow the induction furnace to be controlled by the existing baghouse. There would be minor physical construction. Regulated air contaminants emitted by this source would decrease. Mr. Stan Lodl is the assigned Division person.

For the Humphreys County "News Democrat"--published once on or before Thursday, February 10, 2005.

The applicant is <u>Butler Manufacturing Company</u> with a mailing address of <u>1540 Genessee Street</u>, <u>Kansas City</u>, <u>MO 64102</u>. They seek to obtain an air contaminant permit (Division identification number: <u>57-0293-01/57956</u>) for construction of a <u>Structural Panel Manufacturing Facility</u> at <u>2404 F.E. Wright Drive</u>, <u>Jackson</u>, <u>TN 38305</u>. This proposed operation would consist of spray booths and associated equipment used to coat pre-formed galvanized steel panels for use in commercial and industrial structures. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Madison County "Jackson Sun-Daily"--published once on or before Thursday, February 10, 2005.

The applicant is <u>Quebecor World/Clarksville</u> with a mailing address of <u>451 International Blvd.</u>, <u>Clarksville</u>, <u>TN 37040</u>. They seek to obtain an air contaminant permit (Division identification number: <u>63-0130-12/57848</u>) for construction of a <u>Printing Operation</u> at <u>the same address</u>. This proposed operation would consist of one (1) new heatset offset lithographic press and two (2) inkjet printers. A thermal oxidizer would be used to control emissions from the lithographic press. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Stan Lodl is the assigned person.

For the Montgomery County "Leaf-Chronicle"--published once on or before Thursday, February 10, 2005.

The applicant is <u>Signature Companies</u>, <u>Inc.</u> with a mailing address of <u>104 Glen Oaks Blvd.</u>; <u>Suite 100</u>, <u>Hendersonville</u>, <u>TN 37075</u>. They seek to obtain an air contaminant permit (Division identification number: <u>83-0340-01/57919</u>) for modification of a <u>Dry Cleaning Operation</u> located at <u>110 Indian Lake Blvd.</u>, <u>Hendersonville</u>, <u>TN 37075</u>. This existing operation consists of one (1) dry-to-dry perchloroethylene dry cleaning machine. A closed-loop refrigerated condenser is used to control perchloroethylene emissions. The proposed modification is to replace the existing machine and condenser with a new machine and condenser. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. W. Medley is the assigned Division person.

For the Sumner County "News-Examiner"--published on or before Thursday, February 10, 2005.
